

**Patrick T. Drews**

21 Wyndcrest Avenue  
Catonsville, MD 21228  
Phone: (410) 719-0512  
Email: patdrews@verizon.net

**Career Objective**

My objective is to find a web development position in an organization where I can utilize my extensive experience in front-end web development. I am well-versed in HTML, CSS, and JavaScript/jQuery as well as multiple content management systems with a primary focus on WordPress. I seek to be part of a team environment and use my excellent communication skills.

**Education**

University of Maryland University College  
B.S., Information Systems Management, December 2001

**Work Experience**Hover Communications, Web Developer - Catonsville, MD

June 2005 to Present

- Plan, develop, deploy, and maintain web sites in accordance with clients' needs.
- Develop solutions using HTML, CSS, JavaScript/jQuery, ColdFusion and PHP.
- Integrate third-party products and services such as e-commerce applications into existing sites.
- Extensive experience with WordPress installations, theme development/modification, and integration/customization of plugins.
- CMS experience includes WordPress, Joomla!, ExpressionEngine, Drupal, and Blogger.

American Medical Directors Association (AMDA) - Columbia, MD

Web Coordinator, June 2000 to June 2005

- Launched AMDA's Web site, <http://www.amda.com/>, in 1997 using HTML and plain-text editor.
- Managed site full-time since June 2000. Created, edited and maintained content using HTML, CSS, JavaScript, ColdFusion, ZOPE, SQL, Macromedia Dreamweaver, Adobe PhotoShop and Adobe Acrobat.
- Managed all aspects of web site: budget, planning, design, navigation, universal accessibility, content, statistics, troubleshooting, public and vendor relations.
- Developed and launched web-based member services, information, publications, and education.

American Medical Directors Certification Program (AMDCP) - Columbia, MD

Certification Coordinator, August 1995 to June 2000

- Coordinated certification program for physician medical directors in long term care. Created MS Access database to track activities from inquiry through application to certification.
- Guided physicians through certification process.
- Provided technical support on-site at educational symposia and Board meetings.
